

Swiss Pavilion at the 15th International Architecture Exhibition –
La Biennale di Venezia

Christian Kerez *Incidental Space*

Invitation to the media conference

Thursday, 26 May 2016, 15:00

Swiss Pavilion, Giardini della Biennale

Swiss architect **Christian Kerez** explores the limits of what is possible in architecture today. He has realised his interdisciplinary project «Incidental Space» in close collaboration with various research teams from ETH Zurich. The exhibition, located at the Swiss Pavilion, presents new technological possibilities in architecture, but also questions habitual thought patterns and self-imposed limits. Christian Kerez wants to encourage new ways of thinking about architectonic space and, in consequence, new ways of building. His project offers visitors a fresh and unusual spatial experience.

We look forward to welcoming you at the media conference at the Swiss Pavilion. If you would like to attend, please register by email to kathrin@picklespr.com by **Monday, 16 May 2016** at the latest. Should you be unable to attend but would like to receive the media dossier, please let us know. We will be glad to send you the relevant documentation.

Please note that accreditation is required for participation at the media conference. **All forms of accreditation for the Architecture Biennale must be obtained directly from the Biennale's media office. This is possible only up to 14 May 2016.**

The accreditation form can be accessed [here](#).
